# SHIRE PHARMACEUTICALS

A big thank you to Shire Pharmaceuticals for visiting the college earlier this year. Shire Pharmaceuticals, 'The global leaders in rare disease,' have recently opened in the Dunboyne area and visited the college to inform our students of who they are, what they do and the opportunities that are now open to anyone who would like to pursue a career in this field.

They gave talks to our students about their company and their new building along with eye opening discussions on science and technology, quality assurance and modern apprenticeships. They also gave our students valuable career advice for their futures. They told them how apprenticeships are an alternative route for qualifications that come with huge benefits, such as, being able to approach employers with much sought after experience in the work place to offer, once qualified.

Representatives from Shire Pharmaceuticals showed the students how technology can make the workplace more efficient and paper free. The importance of following procedure for quality assurance, such as washing your hands correctly so as not to contaminate the samples being worked on or the work area, was also discussed.

## TRAD MUSIC SESSION

Musicians Kay Webster and Deirdre Ní Bhuachall played the flute and harp for our Pre-University Arts and Tourism students today.
